SUMMARY

Textile Engineering graduate with professional experience in apparel merchandising and international buyer coordination. Experienced in sample development, buyer follow-up, production coordination, fabric and trims booking, quality-related follow-up, and maintaining production and order documentation.

My academic background in Apparel and practical experience in the garment industry have developed my interest in the business and management aspects of the international fashion and apparel industry. I aim to strengthen my academic and professional capabilities through Master's-level study in Fashion Business, Fashion Management, Textile Management, or a closely related field.
